

Thursday 28/11/2024 MiDiVine Workshop

“Sustainable Viticulture towards climate change challenges”

Cyprus University of Technology

Tassos Papadopoulos Building, Amphitheater 1

Agenda

13:30-14:00	Registration
14:00-14:15	Welcome Message (Dean of the Faculty and Cyprus Representative)
14:15-14:30	MiDiVine Project Presentation- Prof. Aziz Aziz, University of Reims, France
14:30-14:45	Genetic diversity of the Mediterranean native grapevine's cultivars, source for adaptation to climatic change challenges - Mrs Rym Bouhla – INRAT – Tunisia
14:45-15:00	The Impact of Climate Change on Moroccan Viticulture: Phytosanitary Challenges and Future Prospects - Dr Khaoulla Habbadi – INRAM – Morocco
15:00-15:15	Exploring Intravarietal Diversity as a Strategy for Adapting to Climate Change- Dr. Alicia Pou – UCVV – Spain
15:15-15:30	Exploring grapevine and medicinal/aromatic plants intercropping challenges - Dr Nikolaos Tzortzakis, Cyprus University of Technology, Cyprus
15:30-16:00	Discussion
16:00-16:30	Coffee Break
16:30-16:45	Beneficial rhizobacteria primed grapevine for enhanced systemic immunity and drought stress resilience: challenges for sustainable viticulture- Prof. Aziz Aziz, University of Reims, France
16:45-17:00	Unraveling the role of glycolipids in bacteria-induced systemic resistance: case of <i>Pantoea</i> spp. – Dr Simon Duchateau, University of Reims, France
17:00-17:15	Sustainability from vine to wine - Dr Menelaos Stavrinos, Cyprus University of Technology, Cyprus
17:15-17:30	Innovation related to sustainable wine production: Winestories case studies. Mr Christodoulos Karaolis, Zambartas Wineries, Cyprus
17:30-17:45	The environmental impact of viticulture in the MiDivine project areas - Dr. Vassilis Litskas, Researcher, Sustainability Metrics LTD, Cyprus
17:45-18:15	Discussion
