

## COASTLINE PROJECT - Invitation to Webinar: Ground Propection – Marine Hydrographic

We are pleased to invite researchers, students, academics, and professionals to a webinar on “Ground Propection – Marine Hydrographic,” organized under the COASTLINE project and hosted by Terra Marine. The webinar will bring together experts who will present advanced technologies and practical applications related to marine hydrographic surveys, geophysical methods, and underwater cultural heritage imaging.

This event is part of the COASTLINE webinar series focusing on modern marine survey techniques and innovative approaches in marine geophysics, aiming to equip participants with valuable knowledge and insights into contemporary ground propection technologies and their real-world applications.

**Date:** 24<sup>th</sup> February 2026

**Time:** 11:00 - 12:45

**Venue:** Microsoft Teams

**Registration:** [Register here](#)

A certificate of attendance will be awarded to all participants.

We look forward to your participation!!!!
